<p>Description: Toyota has received reports indicating that some vehicles experienced symptoms of the recalled condition after being inspected or repaired. Due to the variation in the placement of the light-weight, foam water splash protector which is installed in front of the spare tire carrier or loss of the protector during normal usage, water splashed rearward with high concentrations of road salt can reach the spare tire carrier and corrode the spare tire carrier assembly cable.</p> <p>In limited instances, the spare tire stowed under the floor may become separated from the spare tire carrier and become a road hazard that could cause a vehicle crash.</p> <p>Remedy: Toyota dealers will be requested to inspect and, if necessary, replace the entire Spare Tire Carrier with an improved one. This replacement will be performed at NO CHARGE to the customer.</p>

🔍 **Learn more about this recall**

Description: In the involved vehicles, grease inside the shift lever assembly could transfer to other internal components, causing them to function improperly.

This could allow the shift lever to be moved out of the "Park" position without depressing the brake pedal. If this occurs when the parking brake is not engaged, it could lead to a vehicle rollaway and increase the risk of a crash.

Remedy: Toyota will send an owner notification by first class mail starting in mid-December, advising owners to make an appointment with their authorized Toyota dealer to have the shift lock solenoid assembly replaced, the grease removed, and the appropriate amount of grease reapplied at NO CHARGE.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Toyota Recall / Service Campaign

Portions of this report have been included under license from Toyota Motor North America, Inc. ("TOYOTA"), License Agreement TMS1013 . This data applies only to vehicle marketed or originally sold in Mexico and the United States of America, including Guam, Saipan, American Samoa, Puerto Rico, the U.S. Virgin Islands and the other United States territories and protectorates with currently open safety or emissions recalls, or service campaigns. While TOYOTA provides data to Carfax Inc. on a regular basis, this report may not include very recent activity.
