

Shanghai YanBan Machinery Professional In Packing & Filling Machine

YB-YG8 Automatic Bottle Filling and Capping Machine

Application

This filling capping machine is mainly suitable for syrup, beverage, soy sauce, vinegar, cod liver oil, olive oil, liquid calcium, wine, liquid fertilizer, essential oil, toner, hair oil, laundry detergent, ink, disinfectant, injection, industrial alcohol and various medical liquid filling and capping.

Machine name: YB-K12 Automatic Oral Liquid Filling and Sealing Machine

Performance feature:

1. This machine adopts PLC control system, color touch screen display.
2. Mainly used for 5-60ml straight tube bottle (with easy pull cover or aluminum cover) filling, adding cover and sealing.
3. Realize bottle transporting reliable by screw, tracking filling, which is not easy to create foam. It transport the cover by electromagnetic vibration, high covering rate.
4. This machine is 2-in-1 filling and sealing, advanced design and compact structure.
5. Main electrical elements adopts foreign well-known brand.
6. Machine body is made by 304 (optional 316) stainless steel, machine is completely meets GMP requirements.

Technical parameter:

型号/Model	YB-K12
灌装头数/Filing head number	12
扎盖头数/Capping head number	10
灌装量/Filling volume	5-60ml
生产能力/Capacity	80-120 bottles/min
灌装精度/Filling accuracy	$\leq \pm 1\%$
合格率/Pass rate	$\geq 99\%$
电源/Power supply	3 Ph. 380V, 50/60Hz
总功率/Total power	2.5 KW
净重/Net weight	1000kg
外形尺寸/Overall dimension	L2500 × W1600 × H1650mm

2, YB-TB200 Automatic Heat Shrink Sleeve Labeling Machine with Steam Tunnel and steam generator**Machine features:****Performance feature:**

1. The whole line can be adjusted production automatically or manually:

Automatic speed control: under automatic state, our machine can adjust speed according to the former production speed automatically, with bottles of magic eye, fully automatic tracking system, fully achieve unmanned automation function.

Manual control: can control convey speed according to the requirements of the production, the operation fully human.

2. Whole machine malfunction automatically detect, equipped with man-machine interface in Chinese/English display and trichromatic lamp alarm prompt, could find out equipment failure reasons timely.

3. Single positioning guide pillar type center: more stable to guide the label.

4. Adjustable cutter head: original cyclotron cut-off, double blade, long life;

5. Cutting surface is smooth and no tail, make the shrink more perfect.

6. Applicable bottle type: round square, flat, cup type and irregular curve type bottles.

7. Main electrical elements adopts foreign well-known brand.

Technical parameter:

Model	YB-TB200
Capacity	100-200 bottles/min
Label length	40-300mm
Label thickness	0.03-0.13mm
Paper corn inner diameter	76mm
Power supply	1Ph. 220V, 50/60Hz
Power	1.8 KW
Net weight	350kg
Overall dimension	L2100 × W850 × H2100mm

For whole body shrinking ,we suggest use the steam shrinking one .

3, YB-LP1, automatic bottle unscrambler /bottle feeder

Usage and performance feature:

This machine is mainly used for round or square shape bottles automatic sorting and arrangement.

It's widely used for food/commodity/health care products/pharmaceutical industries.

Put the bottles on the rotating disc manually, then it will set the bottles into the conveyor in order, and enter into washing machine/ filling machine. Machine body and part contacting product are made by stainless steel, full compliance with GMP standard.

REMARKS:

1. Price FOB shanghai

Note: Price period of validity: 90 days

2. PAYMENT

30% deposit against the contract by T/T should be paid before the order;

70% balance should be paid off by T/T after inspection before delivery;

3. DELIVERY TIME

45 days after received the deposit ;

4. TRAINING

Against the requests of the Buyer, the Seller's technician could train the Buyer's operators in the Buyer's factory

in the periods of installing & adjusting;

5. INSTALLATION & ADJUSTMENT

The Buyer should make a reservation in advance before delivery of the machines;

The Buyer should pay for the engineer's visa application cost, round air tickets, food & board before his departure; And pay USD 150/day to engineer.

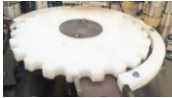

6. GUARANTEE

The guarantee time is one year after the machines normally works in the Buyer's factory, if only the problem is cause due to quality control or any reason by the Seller. We will supply replaced parts free of charge and our engineers will guide you how to solve the problems.

Any problems caused due to irregular operation or incorrect maintenance by the Buyer won't be listed in guarantee coverage.

7,Pls pay attention to this :All machine information are only for reference, the actual machine will be made according to customer's product, all will be subject to proforma invoice.
