| | | | Locate an authorized General Motors dealer to obtain more information about this recall. |
| | | |  Learn more about this recall |
| <p>Description: General Motors notified the agency that the defective ignition switches may have been used as service replacement parts on other vehicles, and as a result General Motors is recalling certain model year 2008-2010 Chevrolet Cobalt, Saturn Sky, and Pontiac G5 and Solstice, and 2008-2011 Chevrolet HHR vehicles. The part numbers for the service parts are 10392423 (a/k/a ACDelco D1461F), 10392737, 15857948, 15854953, 15896640, and 25846762.</p> <p>If the key is not in the run position, the air bags may not deploy if the vehicle is involved in a crash, increasing the risk of injury.</p> <p>Remedy: Dealers will replace the ignition switch, free of charge. Please contact your local GM Certified Service Dealer to order parts or visit www.gmignitionupdate.com for additional information.</p> | | | |
| 04/16/2014 | | General Motors | Manufacturer Safety recall issued NHTSA #14V171 Transport Canada# 2014126 Recall #N140133 REPLACE IGNITION KEY Status: Remedy Available |
| | | | Locate an authorized General Motors dealer to obtain more information about this recall. |
| | | |  Learn more about this recall |

Description: General Motors is recalling certain model year 2005-2010 Chevrolet Cobalt, 2006-2011 Chevrolet HHR, 2007-2010 Pontiac G5, 2006-2010 Pontiac Solstice, 2003-2007 Saturn Ion, and 2007-2010 Saturn Sky vehicles. In the affected vehicles, the key can be removed from the ignition when the ignition is not in the "Off" position.

If the key can be removed from the ignition when the ignition is not in the "off" position, the vehicle could roll away: (a) for an automatic transmission, if the transmission is not in the "Park" position; or (b) for a manual transmission, if the parking brake is not engaged and the transmission is not in the "Reverse" position. This potential for rollaway increases the risk for a crash and occupant or pedestrian injuries.

Remedy: Dealers will replace the ignition cylinder and cut two ignition/door keys and relearn keys, if necessary for each vehicle free of charge. Please contact your local GM Certified Service Dealer to order parts or visit www.gmignitionupdate.com for additional information.

General Motors

Manufacturer Safety recall issued

NHTSA #14V153
 Transport Canada# 2014104
 Recall #N140115 ELECTRIC POWER STEERING ASSIST (CUSTOMER PHASED MAILING)
 Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

Learn more about this recall

Description: General Motors has decided that a defect, which relates to motor vehicle safety, exists in some 2009-2010 model year Chevrolet HHR (non-turbo), some 2010 model year Chevrolet Cobalt, all 2004-2007 model year Saturn ION vehicles equipped with electric power steering (EPS), and service parts installed into vehicles under safety recall 10023 (10V073) prior to May 31, 2010. The subject vehicles equipped with EPS may experience a sudden loss of power steering assist that could occur at any time while driving.

If the power steering assist is lost, a message is displayed on the Driver Information Center and a chime sounds to inform the driver. Steering control can be maintained, as the vehicle will revert to a manual steering mode, but would require greater driver effort at low vehicle speeds, which could result in an increased risk of a crash.

Remedy: Dealers are to replace the power steering motor free of charge.

Glossary

Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2021 edition, 5% of the 276 million registered vehicles in the U.S. were involved in an accident in 2019. Over 77% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 12/17/24 at 7:59:08 AM (CST). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Damage Indicator

Damage can be a result of many different types of events. Examples include contact with objects (other cars, trees, traffic signs, road debris, etc), vandalism, or weather-related events. Not every damage event is reported to CARFAX. As details about the damage event become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 12/17/24 at 7:59:08 AM (CST). Other information about this vehicle, including problems, may

not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Damage Severity

Damage events result in one of the following severity levels:

- **Minor:** Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.
- **Moderate:** Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.
- **Severe:** Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.

CARFAX recommends getting a pre-purchase inspection at a certified collision repair facility.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Service Campaign

Automobile manufacturers issue a service campaign to address product technical issues that may not be related to safety or emissions standards. These issues are typically customer satisfaction initiatives.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
