American Honda Motor Co.

**Manufacturer Safety-related recall issued**

NHTSA #19V-501  
 Recall #X5C Takata Honda Passenger Side Airbag Inflator Recall (DIR5 PSPI,L)  
 Status: Remedy Available

Locate an authorized Honda dealer to obtain more information about this recall

 **Learn more about this recall**

**Description:** American Honda Motor Co., Inc. (Honda) is recalling certain model year 2003-2007 Accord, 2001-2005 Civic, 2003-2005 Civic Hybrid, 2003-2005 Civic NGV, 2002-2006 CR-V, 2003-2011 Element, 2007-2008 Fit, and 2002-2004 Odyssey, 2003-2008 Pilot, and 2006-2014 Ridgeline vehicles. The passenger frontal airbag inflator in your vehicle may rupture when deploying during a crash. The potential for such ruptures may occur in some of the subject airbag inflators after several years of exposure to persistent conditions of high absolute humidity. Honda suggests that you avoid having a passenger sit in the front passenger's seat until the recall repair has been performed.

In the event of a passenger frontal airbag inflator rupture, metal fragments could pass through the airbag cushion material, potentially resulting in injury to vehicle occupants. The risk of such an occurrence increases over time. It is imperative you schedule an appointment with an authorized Honda dealer now to avoid this condition in the future.

**Remedy:** Please call any authorized Honda dealer and make an appointment to have your vehicle repaired. Your dealer will replace the passenger's front airbag inflator with an inflator of a different design, free of charge. For additional information and assistance in locating a Honda dealer, please visit [www.recalls.honda.com](http://www.recalls.honda.com) or contact American Hondas Customer Support & Campaign Center at 1-888-234-2138.

| <p><b>Description:</b> American Honda Motor Co., Inc. (Honda) is recalling certain 2002-2006 model year CR-V vehicles. The butyl tape could separate from the power window master switch if improperly applied. Under certain conditions, moisture may enter through an open driver's window and reach the power window master switch on the door. Over time, exposure to moisture can cause electrical resistance in the switch, which ultimately can cause the switch to overheat and melt, damaging the switch and potentially damaging an associated wire harness.</p> <p>If a switch melts, it could produce smoke and increase the risk of a fire.</p> <p><b>Remedy:</b> Please call any authorized Honda dealer and make an appointment to have your vehicle repaired. The dealer will replace the power window master switch and inspect the wiring harness for damage, replacing it if necessary, for free. For additional questions or to get help locating a dealer, owners may contact American Honda Customer Support and Campaign Center at 1-888-234-2138.</p> |                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                         |

## Glossary

### Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2021 edition, 5% of the 276 million registered vehicles in the U.S. were involved in an accident in 2019. Over 77% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 9/7/23 at 12:46:04 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

### New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

### Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title

transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

**Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
