### Vehicle History Report™

US \$44.99

#### 2009 NISSAN MURANO SL

VIN: JN8AZ18W89W107708  
 4 DOOR WAGON/SPORT UTILITY  
 3.5L V6 F DOHC 24V GASOLINE  
 ALL WHEEL DRIVE

No accidents or damage reported to CARFAX

**22** Service history records

At least 1 open recall

**3** Previous owners

Types of owners: Rental, Personal

**148,061** Last reported odometer reading

This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 9/5/24 at 10:05:21 AM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

**Description:** The preventative zinc coating used on the normally closed (NC) valve armatures within ABS Hydraulic Control Units (HCU) may react with brake fluids containing specific corrosion preventative additives. This reaction can cause the formation of a gelatinous material, which may cause the NC valves to close slowly. Over time, the gel can solidify to an extent such that the spring used to return the valve to the closed position may not be able to overcome the gel buildup, allowing the NC valve to remain open.

If one of the four NC valves remains open, fluid may enter into an accumulator. This additional fluid may have the net effect of causing brake pedal travel to increase a small amount, however enough stroke remains in the pedal to generate sufficient braking force. Although the hydraulic braking system remains intact and full braking force is maintained once the pedal travels the additional distance, if the condition occurs, the initial increase in brake pedal travel could result in increased stopping distance.

**Remedy:** Nissan will notify all owners of potentially affected vehicles within 60 days. For owners of vehicles previously subject to a Service Campaign that have not yet remedied their vehicles, Nissan will also issue a Part 577 letter to re-notify them. The remedy remains unchanged. Dealers will flush the brake system with DOT 4 fluid. The HCU will then be tested to detect a possible stuck valve condition. If necessary, HCU will be replaced.

## Glossary

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

### New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

### Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

### Rental

Vehicle was registered by a rental agency.

### Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
