06/25/2021		General Motors		Manufacturer Safety recall issued - NHTSA #21V473 - Transport Canada# 21394 - Recall #N212340980 REAR TOE LINK SEPARATION - Status: Remedy Available Locate an authorized General Motors dealer to obtain more information about this recall. 🔗 Learn more about this recall
Description: General Motors has decided that a defect, which relates to motor vehicle safety, exists in certain 2010 to 2016 model year Cadillac SRX and 2011 to 2012 Saab 9-4x vehicles. These vehicles may have received improper service requiring adjustment of a rear suspension toe link. In rare cases, dealers or independent repair shops may not have followed GM's published procedures for torquing the jam nut in the toe link adjusters to the proper specification. A loose toe link can cause the vehicle to sway or wander at highway speeds or allow water or other corrosive elements to enter the threads within the adjuster. If a toe link is improperly adjusted, corrosion combined with vehicle motion may eventually cause the threads within the link to wear and loosen. In very rare cases with continued use, the link could separate. Separation while the vehicle is being driven increases the risk of a crash. If a toe link is improperly adjusted, corrosion combined with vehicle motion may eventually cause the threads within the link to wear and loosen. In very rare cases with continued use, the link could separate. Separation while the vehicle is being driven increases the risk of a crash. Remedy: Dealers will replace the adjustable toe link with a design that prevents adjustment.

Glossary

Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2021 edition, 5% of the 276 million registered vehicles in the U.S. were involved in an accident in 2019. Over 77% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 9/9/26 at 3:35:59 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Damage Severity

Damage events result in one of the following severity levels:

- Minor: Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.
- Moderate: Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.
- Severe: Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.

CARFAX recommends getting a pre-purchase inspection at a certified collision repair facility.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
