Description: General Motors is recalling certain model year 2007-2010 Saturn Aura and model year 2008-2010 Chevrolet Malibu and Pontiac G6 vehicles, equipped with a 4-speed automatic transmission. On these vehicles, the tabs on the transmission shift cable end may fracture and separate.

If the tabs were to fracture and separate, the shift lever and the actual position of the transmission gear may not match. The driver would be able to move the shifter to 'PARK' and remove the ignition key, but the transmission gear may not be in 'PARK.' the vehicle may not be able to be restarted and the vehicle could roll away after the driver has exited the vehicle, resulting in a possible crash without prior warning.

Remedy: Dealers will install a retainer over the cable end or replace the shift cable as necessary free of charge.

General Motors

Manufacturer Safety recall issued
NHTSA #14V153
Transport Canada# 2014104
Recall #N140116 ELECTRIC POWER
STEERING ASSIST
Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

⊖ [Learn more about this recall](#)

Description: General Motors has decided that a defect, which relates to motor vehicle safety, exists in some 2004-2006 model year (MY) Chevrolet Malibu and Malibu Maxx, all 2005 and some 2006, 2008-2009 MY Pontiac G6, and some 2008-2009 Saturn Aura vehicles equipped with electric power steering (EPS). The subject vehicles equipped with EPS may experience a sudden loss of power steering assist that could occur at any time while driving.

If the power steering assist is lost, a message is displayed on the Driver Information Center and a chime sounds to inform the driver. Steering control can be maintained, as the vehicle will revert to a manual steering mode, but would require greater driver effort at low vehicle speeds, which could result in an increased risk of a crash.

Remedy: Dealers will replace the torque sensor assembly free of charge.

08/19/2014

General Motors

Manufacturer Safety recall issued
NHTSA #14V252
Transport Canada# 2014173
Recall #N130036 BRAKE LAMP
MALFUNCTION
Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

⊖ [Learn more about this recall](#)

Description: General Motors has decided that a defect which relates to motor vehicle safety exists in 2004-2012 Malibu, 2004-2007 Malibu Maxx, 2005-2010 Pontiac G6, 2007-2010 Saturn Aura vehicles. On these vehicles, over time an increased resistance can develop in the Body Control Module (BCM) connection system and result in voltage fluctuations or intermittency in the Brake Apply Sensor (BAS) circuit that can cause service brake lamp malfunction. As a result, the service brake lamps may illuminate when the service brakes are not being applied, or may not illuminate when the service brakes are being applied. Additionally, cruise control may not engage. If cruise control is engaged, additional service brake pedal travel may be required to disengage it. Service brake pedal application may not be required to move the shift lever out of PARK, or additional service brake pedal travel may be required to move the shift lever out of PARK. Traction control, electronic stability control, and panic braking assist features, if equipped, may be disabled. Service ESC and/or Traction Control tell-tales may illuminate with this condition.

These conditions may increase the risk of a crash.

Remedy: Dealers are to attach the wiring harness to the BCM with a spacer, apply dielectric lubricant to both the BCM and harness connector and on the BAS and harness connector, and relearn the brake pedal home position free of charge.

Glossary

Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2021 edition, 5% of the 276 million registered vehicles in the U.S. were involved in an accident in 2019. Over 77% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 7/6/24 at 7:40:25 AM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Damage Severity

Damage events result in one of the following severity levels:

- Minor: Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.
- Moderate: Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.
- Severe: Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.

CARFAX recommends getting a pre-purchase inspection at a certified collision repair facility.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a

registration and bill of sale are used as proof of ownership.
