<p>Description: Jetta, Jetta SportWagen and Rabbit : A small plastic tab located on the windshield washer fluid reservoir may chafe against an under hood fuel supply line. If chafing occurs, there is a potential for a fuel leak to develop over time. Leaking fuel, in the presence of an ignition source, may result in a fire. New Beetle & New Beetle Convertible : A fastening clamp on a power steering system hydraulic hose may be located in an improper position, which could cause chafing against an under hood fuel supply line. If chafing occurs, there is a potential for a fuel leak to develop over time. Leaking fuel, in the presence of an ignition source, may result in a fire.</p> <p>Remedy: Jetta, Jetta SportWagen and Rabbit : Inspect and, if necessary, replace the under hood fuel supply line. As a preventive measure, a plastic tab on the windshield washer fluid reservoir will be removed. New Beetle & New Beetle Convertible : Inspect the affected fuel supply line and replace it if necessary. As a preventive measure, inspect the position of the affected fastening clamp and adjust it into the correct position if necessary.</p>

01/25/2017		Volkswagen	<p>Manufacturer Safety Recall issued NHTSA #16V913 Recall #45F2 ABS CONTROL MODULE SOFTWARE Status: Remedy Available</p> <p>Locate an authorized Volkswagen dealer to obtain more information about this recall</p> <p>⊖ Learn more about this recall</p>

Description: On certain vehicles, a fault within the antilock brake system (ABS) may cause the module to fail during ABS and/or electronic stability control(ESC) activation. This will cause warning lights for ABS, brake and the ESC systems to illuminate.

Remedy: To help correct this defect, your authorized Volkswagen dealer will update the ABS control module software with improved diagnostic capability to detect insufficient PCU ground connection. ABS modules with insufficient ground connections will be replaced. The software update will take less than an hour to complete; if the ABS module requires replacement, this work can take up to a full day to complete. The recall repair will be performed for you free of charge.

Glossary

Failed Emissions Inspection

The emissions check performed during a vehicle inspection indicated the vehicle was emitting more than allowable emissions standards and/or had missing or modified parts. Repeated failed emissions records can indicate engine problems and CARFAX recommends you have the vehicle inspected.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
